**WARNING**

- For the baby up 7 months and under 15 months.
- Do not use until baby can sit unassisted.
- Never leave child unattended! Always keep child in view while in walker.
- When use it as a rocker, do not turn it upside down or shake it acutely.
- Never use near stair, steps or thresholds, check that surfaces are flat and free of objects that may cause tipping over either indoors or outdoors.
- To reduce chance of the child slipping out of the seat, check that both feet of child touch the floor and never carry the walker with the child in it.
- To avoid burn injuries, keep the child away from ranges, radiators, space heaters, fireplaces, and etc.
- Do not use walker near driveways, streets, swimming pools or any other areas that are not safe.
- Discontinue using the walker should it become damaged or broken.
- This walker is recommended for a child capable of sitting upright unassisted, 32 inches (81cm) tall or less, and weighing 30 pounds (15 KGS) or less.
- Use only for limited period of say 30 minutes at a time, this walker is not a training aid and excessive use may impair the baby's natural walking development.
- Your baby walker frame may be cleaned, using a damp cloth and ordinary domestic detergent. Do not use abrasives or bleach, if you should remove the seat from the walker for any reason, ensure that it is properly refitted and that all hooks and studs are properly engaged.
- Your walker needs regular checking for safety and performance. Ensure there is no damage, that the height adjustment is properly locked and the castors operate smoothly.
- Adult assembly is necessary.
- Keep away from fire.
- Non-rechargeable batteries are not to be charged.
- Different types of batteries or new and used batteries are not to be mixed.
- Only batteries of the same or equivalent type as recommended are to be used.
- Rechargeable batteries are to be removed from the toy before being charged (if removable).
- Rechargeable batteries are only to be charged under adult supervision (if removable).
- Batteries are to be inserted with the correct polarity. Exhausted batteries are to be removed from the toy. The supply terminals are not to be short-circuited.
